The Union of Computer Scientists of Cuba convenes

Just when it reaches its first five years of creation, the Cuban Information Technology Union (UIC) on the Isle of Youth calls all professionals with domain and skills in the areas of knowledge related to Technology Technologies to join its ranks. Information and Communication.

Under the slogan For the digital transformation on the island, the pinera subsidiary encourages you to participate actively and effectively in the development of the country, its defense and independence.

Those interested may access the REGISTER module, which can be found on the official website of the organization https://www.uic.cu/inscripcion-solicitar/ and complete the data that will make up their profile. The call is also addressed to those who already integrate it to carry out the validation of their personal, work and professional data, thus guaranteeing its updating and facilitating the UIC's approach towards its members. If you have any questions about both processes, the interested parties should contact their managers by telephone at 46322003 or by email at the address: uic.isladelajuventud@uic.cu.
