In Isla de la Juventud vulnerabilities are minimized as part of Meteor 2021 on its 35th anniversary, in order to anticipate an active cyclonic season - from June 1 to November 30.

The two-day exercise, coordinated by the National Civil Defense System- served for the locals to concentrate efforts on the unblocking of registers and sewers, prone to causing flooding in the lower areas of this city, as it is next to the ditch system , the main drainage routes in case of heavy rains.

Likewise, work in accordance with the measures left by the last control visit of the national commission of the Civil Defense General Staff, for the reduction of the danger of disaster due to technological accidents based on prevention and protection.

In this sense, the highest authorities of the Municipal Defense Council (CDM) toured the facilities of the Medicines Marketing Company, Wholesale Marketing Company, UEB Frigorífico Comercial and the Manuel Porto Dapena sea port.

Zunilda García Garcés, president of the CDM, directed the pruning of trees, the hauling of debris, the cleaning of roofs, patios and roofs, actions that also contribute to maintaining a favorable epidemiological hygienic environment against arboviruses, without neglecting biosecurity measures to cause of COVID-19.

The systematic educational work in order to prepare the inhabitants to
