Isla de la Juventud has worked intensively, which translates into understanding the ideas, conceptions and guidelines of the 8th. Congress of the Communist Party of Cuba, said today in this city Roberto Morales Ojeda, member of the Political Bureau and Secretary of Organization and Politics of the Central Committee.

He specified that these ideas, conceptions and guidelines should be translated into better internal functioning and as a goal to the external in increasing the quality of life of the population based on continuity and unity as a premise and on science, innovation and social communication as pillars strategic.

Defending the work that they bequeathed to us, resisting, advancing and going for more are the urgencies of these times, therefore, the importance of redesigning the local development strategy, for which collective construction and work with consensus are vital, that is it will bring us closer to the town every day, he said.

He stressed that preparation, commitment and responsibility are vital requirements in terms of cadre policy, who support their partisan work on the scientific method, innovation and social communication aimed at addressing priorities, among which are the protection of the national identity and culture and vigilance against digital subversion.

For his part, José Ramón Monteagudo Ruiz, also a member of the Secretariat and head of the Agrifood Department, urged the locals to work towards the fulfillment of the plans, to recover the delays in the spring planting, to efficiently exploit the irrigated areas and to recover , by stage, the agro-productive potential of the territory.

This municipality must strengthen the management of economic actors; promote science and innovation; increase exports of goods and

services; develop endogenous potential, advance in the construction of the 311 homes in the plan and work quickly to improve the retail trade, said Félix Duarte Ortega, member of the Secretariat and head of the Department of Industry, Construction, Tourism, Transportation and Services in the Central Committee of the Communist Party of Cuba (CC PCC).

Joel Queipo Ruiz, member of the Secretariat and head of the Economic department in the CC PCC, called for eliminating bureaucratic and structural obstacles, prioritizing the political assurance of the economy, monitoring the state of opinion of the population, working, inducing and leading the improvement of economic actors and the articulation of the business sector with the non-state sector.

It constitutes a challenge, from the educational and scientific point of view, the consolidation of managers and teachers; the different look at the pedagogical schools that ensure the quality of the educational teaching process, the computerization process and the training of a qualified workforce to contribute to local development, said Jorge Luis Broche Lorenzo, member of the Secretariat and head of the Department of Education, Sports and Science at the CC PCC. Rogelio Polanco Fuentes, member of the Secretariat and head of the Ideological Department of the CC PCC, alluded to the relevance of effective communication in light of the changes in paradigms, especially in the digital public scenario and the intensification of the economic, commercial and financial blockade of the United States to Cuba.

The CC PCC Secretariat, headed by Miguel Díaz-Canel, First Secretary of the organization and President of the Republic, today evaluated in this city the concretion of the ideas, conceptions and guidelines of the 8th. Party Congress, at the ninth meeting of its kind held in the national territory. This special municipality concludes the weekly agenda of the top Cuban leader after holding similar meetings this Thursday in the provinces of Ciego de Ávila and Camagüey.
