It is granted to working mothers of children with severe irreversible and permanent disabilities, in vegetative and bedridden states, with a tendency to progress over time and profound effects on the neurocognitive and adaptive functions of the environment in pediatric age, without the possibility of institutional care .

For the provision of the service, the following requirements must be met:

1. The mother was linked to the job at the time of the child's birth or when the child became disabled.
2. You have abandoned your employment relationship due to the need to dedicate yourself to your care.
3. The child's degree of disability prevents him from accessing the national education system, including any type of educational care or other institutional alternative of MINSAP.
4. That the son with severe disability is in pediatric age, considering that at this stage they benefit from outpatient rehabilitation and stimulation programs, as well as educational and psycho-pedagogical programs, essential for evolution, prognosis and quality maintenance. of life.
