Landfill Treatment Services to DSUs.

Throughout the territory. This service is free. You should know that the burial of the DSU is carried out in trenches enabled mechanically or manually with the aim of covering the waste with soil once deposited in them and after classifying them into organic and inorganic waste, recycling organic waste and burying the inorganic ones.

Debris Collection Services.

Throughout the territory. This service is free for natural and legal persons. You should know that in case of a planned voluntary work or a sanitation within the home coordinated with the DMSC for its collection; Either manually, mechanized or by placing an AMPLIROLL box, it is carried out with the support of the population.

Street sweeping services.

Throughout the territory. This service is free. You should know that in the street sweeping activity, each street sweeper serves a section, with a standard of 5,200 square meters. The sweeper has to remove all the dirt, whiskers (grass) and disperse the water from the section that he works.
